

Report of the poster competition event, held in November 2021,
organized by IQAC of Serampore Girls' College

Date: 16/11/2021

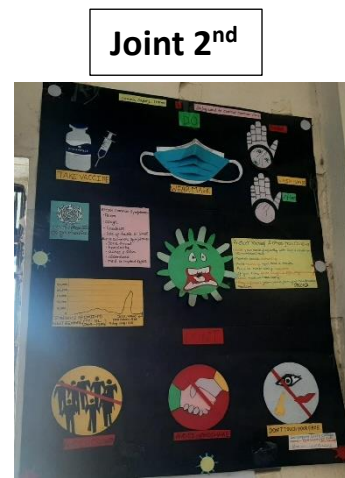

Objective: To encourage students to learn more about the causations and conditions of worldwide lockdown situation and how to face this with more confident approach by learning it in heuristic methods.

In the month of November, IQAC team of Serampore Girls' College organized a poster competition on: "CORONA (COVID-19) SAFETY RULES AND NORMS TO BE FOLLOWED IN THE OFFLINE MODE OF TEACHING AND LEARNING AND IMMUNITY DEVELOPMENT REQUIRED AS A SAFEGUARD TO COMBAT COVID- 19(CORONA VIRUS)." Among lot of entries, we found real difficulties to pose only three as prize holders. Newer ideas, brighter presentation and confident approach was noticed in most of the students. Still, our honorable judges viz. Mrs. Chandrima Roy, Dr. Snigdha Chattopadhyay and Mr. Debkanti Das, really worked hard to finalize the most valuable jewels from the depth of the sea of these treasures. Our honorable Principal ma'am is really worth to be mentioned, without whose continuous inputs and encouragements this event might be a mere plan. Finally, We, the team of IQAC is really glad to announce the name of the three participants whose works were slightly better than the other entries:

- 1) Lipika Soren of bio sciences' departments worked on 'Corona safety norms and safeguard to combat corona virus.
- 2) Ipsita Majumdar of history department, whose work is more emotional representation of how new normals actually flooding our life but also necessary to save us from this misfortune, globally.
- 3) Apti Ghosh of Bio sciences' departments presented a real good work that easily pointed out do's and don'ts of this situation very nicely.

We are also thankful to those participants who are currently not in this list but whose contribution also made this event richer and fruitful. We are sure that in coming days their work will also be recognized. Till then, I, Dr. Sayanti Talukdar (Mukhopadhyay), as IQAC Coordinator, wishing everyone a better tomorrow.

Outcome: We, the team of IQAC, felt overwhelmed by the oceanic response from the students and their enthusiasms. This program not only was fruitful as simply a cultural event, but also posing the depth of the event. Students have learned why this monotonous situation had loomed large over them as lock down situation and also, they have understood well how to handle it. The ‘new normal’s are no more a painstaking practice for them rather they have felt why to prioritize them. They are quite confident to face brighter days.

Posters being spread on the table
