Report of Open House Program 2022-23.

Date – 10/05/2023

On 10th May, 2023; the faculties of Departments of biological sciences organized an Open House Program for first semester students to discuss about their views regarding several issues those have been faced by them during both online and offline sessions. At very first we would like to express our sincere gratitude towards Dr Soma Roy, honourable Principal of our well reputed institute Serampore Girls' College; for her valuable permission for this program to be arranged. Dr. Madhusree Halder from Dept. Of Botany, Dr Ipsita Chakroborty and Madhusree Mal form Dept. Of Chemistry and Dr. Ananya Ali from Dept. Of Zoology worked harmoniously to arrange and assemble all the works regarding this program to take place. Generous, valuable and lively helps from Tanu di as lab attendant will be always remembered as that became pivotal to the path of this journey.

Students took part enthusiastically and pointed out a good bunch of issues those are in real need to be solved for a healthy and happy educational environment. They felt the classrooms are in need of upgradation like better black boards, well-functioning lights and proper window system that can prevent rain waters etc. Also, they were very much worried about the washroom conditions and mentioned the situation as 'Unhygienic' due to a lot of issues like non-functional lights, unavailability of water etc. At biological laboratories water basins were not functional during many practical work sessions and that posed huge issues to finish their work at proper time. A more lot of issues regarding upgradation of chemistry lab was put forwarded like – absence of laboratory utensils, glass wares, appropriate burner and gas connection system, chemical storage rack and proper cleaning and maintenance.

All the member of Department of Biological Sciences will surely concentrate on the matters and are hopeful that in coming days those problems will surely be sorted out as much as possible.
