Report of Parent Teacher Meeting Program 2022-23 (Even sem), 2nd Sem

Date – 18/05/2023

On 18th of May, 2023; the faculties of Departments of biological sciences organized a Parent Teacher Meeting (PTM) Program for second semester students to discuss about their performances in earlier taken Continuous Internal Assessment and class-attendance . At very first we would like to express our sincere gratitude towards Dr Soma Roy, honourable Principal of our well reputed institute Serampore Girls' College; for her valuable permission for this program to be arranged. Dr. Madhusree Halder from Deptt. Of Botany, Dr. Ipsita Chakroborty and Madhusree Mal form Dept. Of Chemistry and Dr. Ananya Ali from Dept. Of Zoology worked harmoniously to arrange and assemble all the works regarding this program to take place. Generous, valuable and lively helps from Tanu di as lab attendant will be always remembered as that became pivotal to the path of this journey.

Students and their parents took part enthusiastically and we the faculty members one by one discussed the till then performances of students in class tests. Also, we tried to find out how could the institute and faculties help students who have not done too well in class tests. Most of the parents and students were agreeing that the low achievements were mostly due to their insincerities and promised to score better in exams in coming days for sure. At mostly all the parents were quite happy by departments teaching methods and not complained anything severe that can be reported.

All the member of Department of Biological Sciences will surely concentrate to improve farther and are hopeful that in coming days any problem, if come, will surely be sorted out as much as possible to upgrade the teaching learning process for the students.
