Department of Bengali

Attendance

It takes students beyond the classroom for a firsthand experience. They can be a great way for students to learn about different cultures, historical sites, and natural wonders.

Objectives:

Santiniketan

To gain a comprehensive understanding of Rabindranath Tagore's philosophy of education, art, and rural reconstruction as embodied in Santiniketan, and to explore his life and literary contributions through the exhibits at Rabindra Museum. The study tour aimed to provide practical exposure to an alternative educational model and foster an appreciation for Indian cultural heritage.
