### REPORT ON LOCAL EXCURSION

SEM-II

Date- 19/05/2022

On 19<sup>th</sup> May 2022 a local field excursion was organized by Department of Botany, Serampore Girls' College. At very first we would like to express our sincere gratitude to our honorable Principal madam Dr. Soma Roy for allowing us to arrange this local excursion.

As local excursion is a part of B.Sc Botany (General) degree course of semester II under CBCS curriculum, we have organized a local excursion surrounding Serampore locality, Hooghly. Objective of this type of tour is to aware students about local plants, to know their scientific background and give them practical knowledge about collection, identification of wild angiosperms and preparation of herbarium specimen.

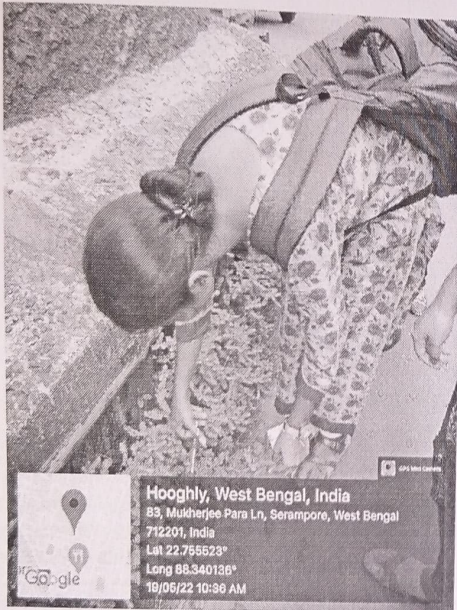

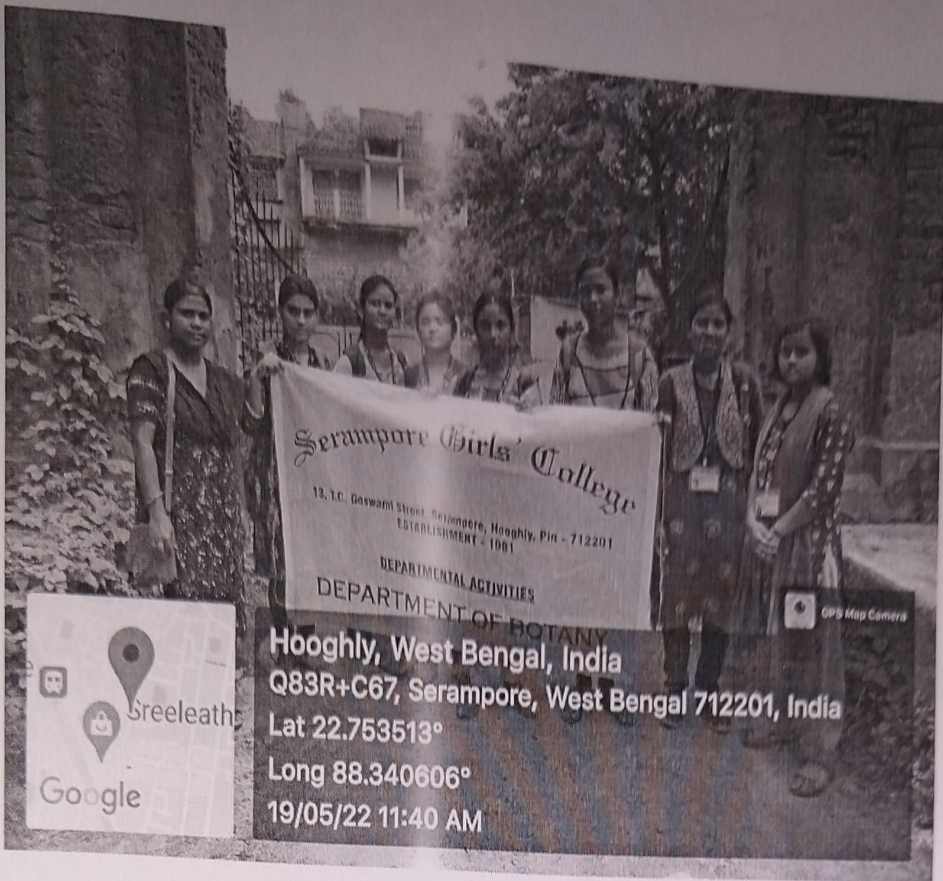

Students of semester II took part enthusiastically to fulfill our goal, they learned about different groups of angiosperms, their habit, habitat, beneficial or harmful effects on environment. Dr. Madhusree Halder (Faculty of Department of Botany) guided the students properly in every aspect for a successful excursion.
