About the Webinar:

We are all passing through the most difficult phases in our lives as the global pandemic has gripped the entire world. Economy of our entire nation came to a standstill with the lockdown. In the meantime a violent clash happened between Indian and Chinese soldiers on 15th Jun along the line of control (LAC) in Eastern Ladakh Galwan Vally. Thereafter India plans to impose more restrictions on Chinese imports. The state-run Bureau of Indian Standards is finalizing tougher norms for imports to ensure markets for locally produced goods. The Trade Ministry is separately evaluating non-tariff measures to check Chinese imports to avoid falling foul of World Trade Organization rules. China is India's biggest source of imports and second largest trade partner. Final products as well as raw materials supplies from China has been already disrupted in the wake of the COVID-19 pandemic. Again imposing stringent import measures will jeopardize Chinese import. Will Indian industries be benefitted through these decisions? Will it facilitate towards “Atmanirbhar Bharat”? What will be the impacts on general people? This webinar may focus and give insights into these matters.
